Stacyann Peters has been working with the Individuals at 824 E. 178th Street for approximately six years. She exemplifies the core competency of getting to know the person through assessment and discovery. Stacyann knows the preferences of all the individuals she supports and ensures that those preferences are met. Whether it is the kind of snacks they like, clothing style or what they enjoy in their leisure time. This is evident with CP, an individual who rips his shirts. Stacyann discovered that there were certain fabrics and styles of shirts he preferred and would readily wear. She would look for sales of these types of items, even when she was on her own time, and alerted residence managers of these sales.

Even though, most of our Individuals at 824 E. 178th St. communicate without words, they communicate via body language how much they like being in her presence. Ms. Peters volunteers to assist the individuals with clothes shopping to ensure that as she puts it "the guys are dressed nicely".

Stacyann also demonstrates the core competency of facilitating personal growth and development on every shift she works. Stacyann Peters encourages and supports the individuals to do whatever they can to increase their independence.
