

At CFS, we believe that everyone's life-path is different, and each person's goals will bring them to a unique destination. We also realize that the journey itself – full of community, relationships, and growth – is something worth celebrating.

Contributions to our annual awards dinner make possible all the special services and programs we offer to help those we support attain more independence and enjoy richer, fuller lives.

## A Night Honoring Carol and Jim Dillon

We are pleased to announce that we will be honoring **Carol and Jim Dillon** at this year's dinner. Carol and Jim have been proactively involved and invested with CFS since 2013 when they and their daughter **Emily** first began their journey of support at CFS. Since then, Carol and Jim have been steadfast supporters, including serving as Board Members and sponsors of our annual awards dinners. Their leadership and partnership have helped CFS deliver on its mission to provide person-centered, individualized support to each person we serve.

## Celebrating Personal Journeys

Celebrate the personal journeys of the extraordinary people we support at the **2023 CFS Awards Dinner: Celebrating Personal Journeys!**

Contributions to the Awards Dinner enable CFS to provide each of the 1,400 individuals with intellectual and developmental disabilities we work with the individualized attention and support they need to pursue their own special journeys through life.
